Mr. Daniel Lobb
TRP Enterprises, Inc.
3978 Old Greensboro Road
Winston-Salem, NC 27101

On behalf of our 23rd Project Re-entry Pre-release class at Forsyth Correctional Center; I wish to thank you for the awe inspiring presentation you made on this date. The TRP training that you did for all of The Goodwill Industries staff led me to ask that you bring all of that good insight to our participants before they are released from prison as it will definitely help them to be a "Totally Responsible Person" after they are released back into the community. Please recall that Mr. Gordon Simpson actually commented during your presentation that this type of training should be available for inmates as they are entering The Department of Correction as well as prior to their release. With this notion, I whole heartedly agree.

The manner in which you and your colleagues present being Responsible and not playing the blame game is simply miraculous in its simplicity.

If there is anything that Project Re-entry can do as you pursue additional venues to present this wonderful curriculum; please let us know.

I wish to thank you yet again for taking The CV & PREA training so that at least our Project Re-entry Pre-release participants can benefit from your very accurate observations of personal behaviors and how one can improve on them.

Sincerely,

Michael Thomas,
Project Re-entry Coordinator
